

LEICA DISTO D510

Professional-grade distance meter with a wide range of functions

Product number :16714000

Topfeatures

- You can clean the D510 under running water.
- Modern user guidance and very easy to operate.
- Convenient and error-free data transfer to iPhone and iPad.
- Free app Leica DISTO sketch.
- Creation of an individual list of favourites possible.

All special features at a glance

- Precise targeting and reliable measurements outdoors.
- In unfavourable lighting conditions, such as bright sunlight, and with distant objects, the target can be seen exactly on the high-resolution colour display in the crosshairs.
- With the multifunctional end piece, which is automatically recognised, you can comfortably measure out of corners.
- The Disto D510 can be used in all weather conditions (IP65). It is dustproof and jet-proof.
- Range of up to 200 m and an accuracy of ± 1 mm.
- The D510 allows you to view measurements in m, ft, in and yd.
- Units in tilt sensor 0.0°, 0.00 %, mm/m and in/ft.

Description

Distance measuring device of the professional class. The Leica DISTO 510 is an absolute "all-rounder" and impresses with numerous functions such as: 360° tilt sensor, digital Pointfinder with 4x zoom and 14 measuring modes with which you can comfortably measure corners, angles, edges, lengths, volumes and areas. In addition, you can easily calculate areas and volumes even in large rooms - conveniently at the touch of a button. The free Leica DISTO Sketch app makes it easy to connect the D510 to a smartphone or tablet. This allows you to quickly create photos, sketches or tables, dimension them and send them to a laptop or the office. The high-quality workmanship and the dust or waterproofing make the DISTO 510 a companion on the construction site for many years.
