

NESTLE scanning sphere set, 6 pieces with magnetic base in case

Practical set for flexible applications

Product number :14207000

Topfeatures

- Dishwasher-safe
- Shock-resistant

All special features at a glance

- Perfect for assembling and linking multiple scans.
- The spherical shape enables optimal detection from all directions and has proven itself as a laser scanning target.
- The plastic scanning sphere is lacquered with a special matt textured lacquer for optimal reflection behaviour.
- Incl. removable magnetic base (M8 thread).

Description

The scan sphere set consisting of six balls with magnetic base and case is ideal for compiling several scans. The scanning spheres are made of impact-resistant plastic and have a special matt finish for optimal reflection. Includes a strong magnetic base that can be unscrewed for quick attachment of the sphere to magnetic surfaces.

Technical Details

Diameter	Ø 146 mm
Accuracy radius	± 0.16 mm at 20 °C
Weight scanning sphere	250 g
Sphericity	0.3 mm at 20 °C

Scope of supply

6x scanning sphere, Hard shell case
