

NESTLE levelling stand aluminium, light quality version, 90-170 cm, self-closing

For the longest and toughest use

Product number :13112001

Topfeatures

- Outstanding ease of use
- Best quality in workmanship and material, thus suitable for many years of the hardest use
- Sturdy tread shoe for the toughest use
- Quick locking with ergonomically designed eccentric clamps
- Level integrated in the head
- Self-closing legs

All special features at a glance

- Even with gloves on, easy operation of the tripod is guaranteed
- With the circumferential clamping band, the clamping acts on both the outer tubes and the center profile. This means that there is a constant clamping force in every extended position of the tripod.
- The aluminium parts are anodised and therefore extremely weatherproof.
- The aluminium tubes slide easily and smoothly without jamming, the material is protected and the life of the tripod is extended.
- Head made of glass fibre reinforced plastic
- Bubble level integrated in the tripod head for fast and secure set-up
- The plastic parts are made of glass-fibre reinforced polyamide and are therefore extremely robust.
- The legs are self-closing for easy and safe transport

Description

The lightweight leveling tripod is particularly suitable for leveling measurements where the location has to be changed often and quickly. The quick lock with ergonomically designed eccentric clamps ensures easy operation of the tripod. To avoid errors when taking measurements, the tripod has an integrated vial in the head for quick and safe setup. The legs are self-closing for easy and safe transport.
