

GEOMAX Zone60 HG digital tilt laser

Reliable rotating laser with semi-automatic tilt control

Product number :27114000

Topfeatures

- Simple and intuitive lighting as standard
- Ideal for concrete and formwork work
- Laser class 1
- Can be tilted up to $\pm 8\%$ in 2 axes
- Digital display of the inclination

All special features at a glance

- The GeoMax Zone Series rotating lasers are robust (IP67), versatile (900 metre working range) and offer exceptional value for money.
- The Zone60 HG is a horizontal laser with digital slope up to 8 % and convincing accuracy.
- The display makes it very easy to adjust inclinations in two axes.
- Best application area: outdoor.

Description

The Zone60 HG is a semi-automatic grade laser and impresses with its user-friendly and flexible application. Its semi-automatic grade control in levelling applications makes it the ideal partner for concrete laying and forming. The Zone60 HG allows a slope of up to 8 percent on both axes and convinces with high accuracy. With the included ZRD105 professional laser receiver, you can supplement the performance and increase the range and precision.

Technical Details

Working area with receiver	Ø 900 m
Operating time	> 40 Hours
Weight	3300 g
Laser diode	visible 635 nm (red), class 1
Dimensions	240 x 215 x 215 mm
Protection class	IP67
Self-levelling range	$\pm 6^\circ$
Power supply	4 alkaline mono cells (D), lithium-ion (Li-ion pack rechargeable)
Temperature range	-20 °C to +50 °C
Tolerance	± 0.5 mm per 10 m

Scope of supply

GeoMax Zone60 HG, Receiver ZRD105, Transport case, Li-Ion battery with charger, Manual on CD, Quick start guide, Safety instructions
