

## NESTLE GNSS Pole Carbon PO-9

### For all GNSS measurements

Product number :14033001

### Topfeatures

- Excellent for GNSS surveys.

### All special features at a glance

- Carbon for comfortable work, even at low temperatures.
- Quick-out with 5/8.
- Only one grid at 2 m.

### Description

Carbon GNSS pole PO-9 for all GNSS surveysThe PO-9 carbon GNSS pole is telescopic and has only one detent at 2 m. The unique, locking height prevents height errors and the telescopic nature of the pole means it is quickly ready for work and easy to transport.A quick release allows the pole to be extended quickly and easily.The GNSS antenna can be quickly and safely detached from the pole with the Qo-9 quick-out adapter (included), allowing for particularly flexible and fast work.
