

NESTLE Holzmichel, sawbuck for firewood extraction

Sawbuck Holzmichel - 100% made in Germany

Product number :20604001

Topfeatures

- The plug-in stanchion bars made of aluminium also forgive contact with the chainsaw chain.
- The markings on the timbers for setting the cuts enable fast and accurate sawing.
- The Holzmichel can be dismantled in a few easy steps so that it can be carried in any car boot - the sawdust remains in the forest.

All special features at a glance

- By practitioners for practitioners.
- For obtaining firewood for the home stove.
- Saw the wood into stove-ready logs of 25, 33 or 50 cm in length.
- The Holzmichel can hold a whole 0.33 ster (cubic metre).
- With a log length of 1 m, these are then cut into 33 cm logs with only two cuts, with a log length of 25 cm you need three cuts, with 50 cm only one.
- Ratchet strap supplied to secure when loading the wooden pick.
- Sawbuck Holzmichel one hundred percent Made in Germany.

Description

The Holzmichel sawbuck is a practical helper for anyone who wants to provide their own firewood. It can hold a whole 0.33 ster (cubic metre). The sturdy base frame has markings for setting the cuts in the desired log length (25, 33 or 50 cm). With the ratchet strap supplied, the load of the wood chipper is held in position and secured. It can be dismantled in just a few steps and is therefore easy to transport.
