

NESTLE leg clip LC-32

Safely "park" the bipod strut

Product number :14804000

Topfeatures

- Simply use the leg clip to secure the legs of the bipod strut to a prism pole or GNSS pole for convenient transport.

All special features at a glance

- for all NESTLE bipod struts
- Securely "park" the bipod struts on the bar

Description

With the Nestle LC-32 leg clip, you can attach bipod struts (e.g. 14803001) to a prism pole or antenna pole with a diameter of 32 mm. This means that the legs of the bipod strut are well "parked" when not in use and do not interfere with transport or movement in the field.
