

NESTLE felling wedge hydraulic - Arnold-S

Ergonomic forest work

Product number :20701001

Topfeatures

- Wedge can be moved forwards and backwards.
- Pump unit can be rotated steplessly through 360°, making the felling wedge particularly ergonomic to operate.
- 100 % "Made in Germany"

All special features at a glance

- Can be used as an alternative to heavy wedge work in heavy timber harvesting
- Enables vibration-free wedging, which significantly reduces the risk of falling deadwood.

Description

The Arnold-S hydraulic felling wedge from NESTLE can be used as an alternative to heavy wedge work in heavy timber harvesting. Vibration-free wedging reduces the risk of falling deadwood. The special feature of the Arnold-S is that the wedge can be moved forwards and backwards. The pump unit can be rotated 360° steplessly. The felling wedge is your perfect companion for working ergonomically in the forest.

Technical Details

Spring steel plates	290 x 90 x 2 mm
Weight	9900 g
Stroke per pumping movement	> 2 mm
Lifting force	28.5 t at 690N
Stroke length	145 mm
Wedge angle	19°
KWF tested	Yes
Dimensions	758 x 130 x 180 mm
Oil quantity	650 ml, oil HEES 22 Bio
Grease nipple	1
Temperature range	-25°C to +60°C

Scope of supply

Felling wedge, Pump rod, Carrying strap, Oil filled, Manual
