

## NESTLE scanning sphere set, 6 pieces with magnetic base in bag

### Practical set for flexible applications

Product number :14206000

#### Topfeatures

- Dishwasher-safe
- Shock-resistant

#### All special features at a glance

- Perfect for assembling and linking multiple scans.
- The spherical shape enables optimal detection from all directions and has proven itself as a laser scanning target.
- The plastic scanning sphere is lacquered with a special matt textured lacquer for optimal reflection behaviour.
- Incl. removable magnetic base (M8 thread).

#### Description

The scan sphere set consisting of six balls with magnetic base and bag is ideal for compiling several scans. The scanning spheres are made of impact-resistant plastic and have a special matt finish for optimal reflection. Includes a strong magnetic base that can be unscrewed for quick attachment of the ball to magnetic surfaces.

#### Technical Details

Diameter	Ø 145 mm
Accuracy radius	± 0.15 mm at 20 °C
Weight scanning sphere	250 g
Sphericity	0.3 mm at 20 °C

#### Scope of supply

Scan ball bag, 6x scanning sphere, 6X magnetic base
