

GEOMAX Zone40 T horizontal laser

Real one-button operation - even for long distances

Product number :27126000

Topfeatures

- Laser class 1
- Real one-button operation
- High accuracy ± 1.5 mm @ 30 m
- Extremely large working range \varnothing 1100 m
- Protection class IP67

All special features at a glance

- The Zone40 T is perfect for levelling applications in outdoor areas such as pouring concrete slabs or formwork.
- The powerful rotary lasers from GeoMax Zone offer the right construction tools for all trades and applications. Whether you are new to the industry or an experienced professional with complicated applications, GeoMax rotating lasers are always ready to go.

Description

The Geomax Zone40 T single-button laser offers the precision, range and durability of Geomax premium models. The rotating head is fully sealed to keep the laser working in the harshest conditions and contributes to the device's excellent IP67 environmental rating. With a single control button, the Zone40 T is the easiest zone laser to use. Simply press the on/off switch and the laser automatically levels itself to provide an even horizontal beam for each user. A series of LEDs provide the user with important information such as battery status and height alarm.

Technical Details

Tolerance	± 0.5 mm per 10 m
Working area with receiver	\varnothing 1100 m
Rotation speed	600 rpm
Laser diode	visible 635 nm (red), class 1
Self-levelling range	$\pm 5^\circ$
Temperature range	-20 °C to +50 °C
Power supply	Lithium-ion (Li-ion pack rechargeable)
Operating time	> 40 Hours
Dimensions	240 x 215 x 215 mm
Weight with battery	3400 g
Protection class	IP67
Tilt warning	yes

Scope of supply

GeoMax Zone40 T, Transport case, Remote control, Li-Ion battery with charger, Manual on CD, Quickstart
