

NESTLE Cutting frame adapter for PDR60 / PDRG60

Replace scaffold cord

Product number :13936000

Topfeatures

- Simple alignment in vertical operation
- Precise fastening on the axle marking
- Replaces the scaffolding cord

All special features at a glance

- On modern construction sites, axes can be aligned quickly or precisely with a rotating laser, replacing the scaffolding cord.

Description

With the alignment adapter for the PDR60/PDRG60 receiver, the axes can be aligned quickly and precisely with a rotating laser. The attachment is extremely simple. The L-bracket 90° is mounted between the receiver and the retaining bracket, allowing the receiver to be mounted directly above the axle marker for vertical use on the screed.
