

LEICA DST 360 adapter for DISTO X3 and X4

Transform your DISTO X-series into a professional measuring station

Product number :25014000

Topfeatures

- Turns DISTO X-Series into a P2P tool
- Precise targeting of distant objects

All special features at a glance

- In combination with a Leica DISTO X3 or DISTO X4 the adapter allows to measure a distance between any two points from one position
- Sturdy metal housing for high robustness and consistently accurate measurement results
- Fast and precise targeting of the measuring points

Description

The DST 360 adapter is the perfect addition to your Leica DISTO X3 or X4. It transforms your hand-held laser distance meter into a stable measuring station with which you can measure the distance between any two points. In combination with the Leica DISTO Plan App you can even create scaled plans and process them in CAD software.
