

NESTLE levelling tripod, aluminium, medium heavy version, 90-170cm

For the longest and toughest use

Product number :13102000

Topfeatures

- Outstanding ease of use
- Best quality in workmanship and material, thus suitable for many years of the hardest use
- Sturdy tread shoe for the toughest use
- Quick locking with ergonomically designed eccentric clamps
- Suitable for working with levels, light rotary lasers and theodolites

All special features at a glance

- Even with gloves on, easy operation of the tripod is guaranteed.
- With the patented circumferential clamping band, the clamping acts on both the outer tubes and the centre profile. This ensures a constant clamping force in every extension position of the stand.
- The aluminium parts are anodised and therefore extremely weatherproof.
- The aluminium tubes slide easily and smoothly without jamming, the material is protected and the life of the tripod is extended.
- Head made of glass fibre reinforced plastic
- Bubble level integrated in the tripod head for fast and secure set-up
- The plastic parts are made of glass-fibre reinforced polyamide and are therefore extremely robust.

Description

The medium-weight aluminium tripod is especially suitable for working with levels, light rotating lasers and theodolites. The quick-locking mechanism with ergonomically designed eccentric clamps ensures easy operation of the tripod.
