

NESTLE folding meter wood, 5 m

Precise quality - made in Germany

Product number :18514000

Topfeatures

- Strong joints with robust springs provide a secure hold when the scale is open
- Also well suited for height measurements
- Easy to handle

All special features at a glance

- Selected hardwood
- Black mm duplex graduation on top and bottom edge, therefore very easy to read
- White base colour with transparent protective lacquer, thus high resistance to weathering influences
- Continuous cm numbering on both sides in opposite directions
- Good readability due to large numerals. Number height: centimetre numbers 5 mm, decimetre numbers 6 mm bold
- Pitch: 5m + m / 10 links
- Dimension of the links: 30 x 6.5 mm

Description

The 5 m folding meter from Nestle is a particularly sturdy wooden folding ruler for all types of measurements in construction or interior work and is ideally suited for measuring gates, clearance heights, etc. The Nestle folding rulers also impress with their enormous durability and robustness. The Nestle folding rulers also impress with their enormous durability and robustness.
