

NESTLE calculator holder with clamp

Surveying made easy!

Product number :14963000

Topfeatures

- Quick and flexible assembly.
- Especially suitable for carbon rods.
- The field computer is protected and securely fastened.
- Entries can be made with just one hand.
- Innovative rod clamping especially suitable for carbon rods.

All special features at a glance

- The attachment of the field computer to the prism or antenna pole supports ergonomic work in the field.
- The holder with mount for 7 field computers for attachment to prism or GNSS pole is optimised for Panasonic FZ-M1 or FZ-B2, with and without external battery pack.
- The holder is telescopic, so you can also mount your field computer upright.
- The inclination of the computer holder can be adjusted for optimal visibility.
- Holder with flexible clamping screw for rods from 20 mm to 34 mm diameter.

Description

Increase your flexibility when measuring! By using the NESTLE calculator holders, you improve your comfort when measuring. Screw your field calculator/tablet conveniently to the pole at the optimum operating height for you. Simple and practical to use. Suitable for many 7" tablet calculators, e.g. FZ-B2.
