All special features at a glance

- Ideal for quickly cutting stock and firewood to length.
- KOLIBRI 25 cm: Ideal for piece of wood for firing fireplaces.
- KOLIBRI 33 cm: Ideal for piece of wood for firing tiled stoves.
- KOLIBRI 50 cm: Ideal for piece of wood for firing large boilers.
- KOLIBRI 100 cm: Ideal for stock wood.
- KOLIBRI 100-v, 100 cm: with infinitely adjustable stop plate.
- The spigot is mounted on the bolt for the sword attachment in a few easy steps with the aid of the combination spanner. The KOLIBRI cross-cut bar can then be attached in a flash with the one-hand quick-release fastener: Press the button and attach or remove the KOLIBRI.
- Simply place the plate on the right side of the log end and saw it off as usual.

Description

With the innovative KOLIBRI Trimming support you save time and work because you no longer have to mark the log in advance. Ideal for cutting e.g. stock and firewood to length. With the help of a combination spanner, you can mount the spigot on the bolt for the sword attachment in a few easy steps. Coupling then works by means of a one-hand quick-fit. Press the button, put on the KOLIBRI, then place it on the right-hand side of the log end and saw it off as usual.
