

NESTLE warning light starLED, key + adapter

Versatile, extra-bright warning light for professional use

Product number :19902000

All special features at a glance

- Long-life high-power LED
- Switchover flashing / continuous light
- Battery change without dismantling the light
- Incl. adapter and key

Description

This double-sided high-power LED warning light with practical carrying eye and double battery compartment is ideal for tough construction site use. The battery can be changed conveniently and without completely dismantling the lamp. Thanks to the integrated twilight switch, it only lights up in the dark. With the help of the adapter supplied, the lamp can be easily attached to NESTLE warning pyramids. Switchable between flashing and steady light.
