

Angle eyepiece NESTLE BC-9 / GeoMax Zipp02

For use with steep views, expand their spectrum

Product number :15901000

Description

With very steep views upwards or downwards with a theodolite, readings on the telescope are often difficult. For comfortable readings up to the zenith, use this angled eyepiece. For steep views, suitable for GEOMAX Theodolite Zipp02 or NESTLE Theodolite BC-9.
