

## Angle eyepiece NESTLE BC-9 / GeoMax Zipp02

**For use with steep views, expand their spectrum**

Product number :15901000

### Description

For very steep angles up or down with a theodolite, readings at the telescope are often difficult. Use this angle eyepiece for comfortable readings up to the zenith. Suitable for steep angles with GEOMAX theodolite Zipp02 or NESTLE theodolite BC-9.
