

NESTLE scanner coupling carrier Multi-S

For a secure connection

Product number :13950000

Description

Quick scanner coupling for manhole tripod. Use the quick scanner coupling when operating your instrument overhead. This prevents accidental falls of the instrument. The quick coupling consists of a base and a carrier. This carrier is suitable for many scanner types: Faro Focus3D 120, Faro Focus3D X130, Faro Focus3D X330, Trimble TX5, TX8, Z+F Imager 5006, 5010, 5016, Leica HDS 6000, 6100, 6200, 7000, Leica ScanStation P16, P20, P30, P40, P50, TI Asahi Pentax S-3080, S3180, API Imager. Additionally, you need base 13948000 or 13949000.
