

## NESTLE wall mount for PULSAR laser

### Robust wall mount

Product number :21135000

### Description

The wall mount for rotating lasers is suitable for fixing all common, even heavy lasers, with a 5/8"thread connection. The laser can be ideally fixed to the wall or ceiling profiles and is therefore ideally suited for interior work, e.g. for hanging ceilings.

### Technical Details

For instruments up to	max. Ø 21 cm
Weight	1200 g

### Scope of supply

Wall mount
