

NESTLE DIGIT 100 angle gauge

Determine complementary angle quickly

Product number :17003000

Topfeatures

- Exact angle display when switching on in any position no zero setting necessary
- Reliability and precision proven a thousand times over

All special features at a glance

- Large digits in the LCD display are easy to read even at some distance.
- The horizontal and vertical spirit levels enable the unit to be used as a spirit level and clinometer.
- The printed scale replaces the metre rule
- Measuring leg made of aluminium from high-precision CNC production
- The red powder coating makes the angle gauge resistant to wind and weather.
- Display and vials safely protected behind Plexiglas
- The measuring module is inside the housing and thus cannot be attacked from the outside.
- Low power consumption for minimal battery consumption
- Low-bat indicator prevents downtime

Description

The DIGIT 100 electronic angle gauge with a leg length of 100 cm is suitable for aligning furniture, for tiling or carpentry work. The horizontal and vertical bubble, which is protected behind Plexiglas, makes it possible to use it as a spirit level and clinometer. The complementary angle can be determined quickly and precisely without a second measurement thanks to the "reset"function.

Technical Details

Weight	1700 g
Length	1067 mm
Linearity tolerance	0.15 °
Measuring range	0199,9 °
Power supply	9 V block

Scope of supply

DIGIT 100, Manual
